Product description:	CultBooking is a web-based booking engine designed for accommodation providers such as hotels, guesthouses, and other lodging businesses. The application enables guests to search for available accommodation, review room options and rates, and complete reservations directly through a hotel's website.

¹ "Voluntary Product Accessibility Template" and "VPAT" are registered service marks of the Information Technology Industry Council (ITI)

	The system connects to the accommodation provider's property management system (PMS) or channel management system to retrieve real-time availability, pricing, and restrictions. Guests can select check-in and check-out dates, view available room types and offers, and complete a reservation with instant confirmation. CultBooking supports multiple languages and currencies and can be embedded into hotel websites or accessed via direct booking links. The application is optimized for use on desktop computers, tablets, and mobile devices. The primary purpose of CultBooking is to allow accommodation providers to accept direct online reservations while providing guests with a simple and efficient booking process."

Evaluation methods used:	This conformance report is based on the results of an accessibility audit of a representative sample of pages and components across selected user journeys, for the purpose of assessing conformance to accessibility guidelines. The W3C Website Accessibility Conformance Evaluation Methodology (WCAG-EM) was followed for conducting the accessibility audit. The testing included manual accessibility testing, automated accessibility tools, and testing with assistive technology across multiple platforms and browsers. The following applications were used as part of the audit to identify potential accessibility issues: • Desktop browsers: Chrome (JAWS), Firefox (NVDA), and Safari (VoiceOver) • Assistive technologies: JAWS, NVDA, and VoiceOver • Accessibility testing tools: ARC Toolkit and Colour Contrast Analyser
Applicable	This report covers the degree of conformance for the following
